

I have become aware of a movement to replace current FM translator services with LPFM. I am definitely NOT in favor of this! My family and I are long-time listeners of K-Love and it's a wonderful ministry to us! I have poor health and don't get out much, so it's a Godsend to me! I know of many other people in my position, as well as many businesses that have K-Love on their radios, and losing the capability to receive K-Love would impact their business greatly. K-Love not only uplifts, it tells the community about different events of special events such as concerts as well as churches or businesses that are sponsoring free or almost-free health screenings, flu shots, etc. I have not found another station that offers as much as K-Love and I've lived all over the U.S. and Europe over the last 30 years.

Thank you for allowing me to register my comments, and I ask that you please prayerfully consider this decision.
